EXAMINER'S AMENDMENT

This Office Action is responsive to the applicants' amendment filed on April 25, 2006.

Claims 14, 16-19 and 27 have been amended. Claims 1-13, 15 and 22-26 have been canceled. Thus, claims 14, 16-21 and 27 are pending in this application.

Drawings

The drawings were received on April 25, 2006. These drawings are acknowledged.

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because of the symbol of the *elastomeric (rubber)* is not right with symbol of the elastomeric (rubber) material (see sample in MPEP §608.02 (page 600-99) or see US 3,139,035 represents an *elastomeric (rubber)*). Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior art fails to disclose or render obvious the claimed combination including: an outer tube being provided with a lining of rubber/elastomeric material and having a hollow space or cavity; thickness of the lining being at least nearly uniform; and two inner tubes having apertures in the lining

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
